# Internship Opportunity

## Programmer / Developer (IT)

London (UK)

We are Frontline Data, a provider of new generation online data management products. Since our formation in 2005, we have been using the latest internet technology to develop a range of property, asset and facilities management products. Our business is growing rapidly and we boast an impressive client list.

If you would like an internship in a young and dynamic team that values creativity and innovation, this could be your opportunity. We are based in an area of London called Islington, which is very close to the centre and has an excellent reputation for entertainment and nightlife.

### Internship Opportunity – Programmer/Developer (IT)

We are looking to recruit an intern for a period of six months to work in our development team. You will have the opportunity to work on a range of our products which, depending on you skills, could range from our online management systems through to our data collection systems. You will be working with the latest internet technologies and within a creative and progressive team.

You will also have the opportunity to work with our clients and industry partners and will hopefully play a constructive role in helping our business move forward.

### About You

Most importantly you must be a motivated self-starter with a desire to learn and progress.

We expect you to have a good level of technical knowledge, including programming and database skills. Any experience with C#, VB.NET and SQL Server would be particularly advantageous. We also expect you to have good written and verbal English language skills.

We would welcome applications from graduates or students who have finished their 4<sup>th</sup> year of study.

### From Us

In return, we aim to give you real experience that will enhance your career prospects and make you stand out from the crowd. We want you to finish your time with us having enhanced your technical skills and most importantly learnt how to transfer those skills effectively to the working environment.

As we are always on the look out for talented people, if you impress us during your six months, there may be further employment opportunities. For further information please contact us at: [jobs@frontlinedata.co.uk](mailto:jobs@frontlinedata.co.uk).

**We will also provide you with financial support and help you find accommodation in the local area.**
